ERG wins auction for the construction of a 21.6 MW wind farm in Germany

Genoa, 18 May 2018 - Windpark Linda GmbH & Co. KG, a German company belonging to the ERG Group won, in the auction held on 1 May 2018 dedicated to the on-shore wind power sector, 21.6 MW of new wind power, corresponding to 10% of the capacity currently managed in the area.

The wind farm, construction of which will commence during the next few weeks and whose annual output when fully operational is forecast at around 50 GWh, equal to approximately 39 kt of avoided CO2 emission per year, is scheduled to come on stream during the second half of 2019.

Via this important result, which confirms the validity of its industrial strategy with regard to overseas expansion, ERG continues to pursue organic growth in one of the most important European countries for wind power development, in keeping with the contents of its Business Plan.
