

## Press Release

### **ERG is confirmed among the Corporate Knights "Global 100"**

#### **The first Italian company in the ranking**

**Genoa, 17 January 2024** - For the second year running ERG is ranked among the *"Global 100 Most Sustainable Corporations in the world"*, a ranking published by the Canadian company Corporate Knights, which assesses around 7,000 listed companies with revenues exceeding USD 1 billion.

ERG is ranked 28th in the 2024 ranking (with a significant improvement in its ranking compared to 54th in 2023) third in the Power Generation global sector, and in first place among Italian companies included in the list. This excellent performance for a second year running has been achieved thanks to the company's alignment with the Green Taxonomy applied to Revenues and Investments, its decarbonisation strategy and the Group' ESG actions.

ERG was also awarded the "Pivot Price", the special recognition awarded by Corporate Knights to companies that have completed their transition towards low climate-changing emission models.

Finally, the improvement of ERG's score in the ratings published by Ethifinance, a European group that promotes sustainable finance and development, should be noted as confirmation of the validity of the group's ESG strategy, ERG's score was up from 71/100 to 77/100, based on the best environmental, social and governance performances achieved by the various companies' business development activities.
