

## Press Release

### ERG listed in S&P Global Sustainability Yearbook 2025 as Top Performer

**Genoa, 12 Feb. 2025** – ERG has been listed as a Top Performer in the prestigious S&P Global Sustainability Yearbook 2025, the annual benchmark ranking recognising leading companies in corporate sustainability.

This year, the Group has been included among a select list of 780 leading companies worldwide out of 7,690 assessed across 62 different markets. Specifically, ERG ranked among the best companies in its sector, with a score of 75/100 (compared to a sector average of 35/100), up eight points from last year.

The score is primarily driven by a well-above-average performance in the environmental category, thanks to ERG's transformation into a pure renewables operator and its commitment to decarbonisation, plus highly positive results in the social and corporate governance areas.

Inclusion in the S&P Global Sustainability Yearbook 2025 represents another important recognition of ERG's ESG strategy, which is an integral part of the Group's business, which aims to achieve the Net Zero target by 2040 through concrete and significant actions.
