

## Press Release

### ERG confirmed for the fourth year in a row on CDP “A List”

**Genoa, 11 December 2025** – ERG has been confirmed for the fourth consecutive year in CDP’s “A List” (Carbon Disclosure Project), a global non-profit organization that, by monitoring in climate change management performances, leads companies and governments towards the reduction of greenhouse gas emissions.

Also for 2025, ERG ranks among the global leading companies committed to fight climate change, confirming the solidity of the decarbonisation strategies implemented by the Group. ERG’s enduring inclusion in the “A List” was determined by the recognition of “Leadership” across all assessed areas, with performance above both global and sector averages.

Compared to last year, the Group recorded a significant improvement in the management of emissions (Scope 1 and 2) and in its greenhouse gas (GHG) emission reduction targets, as approved by the Science Based Targets initiative. ERG’s best practices also include its governance model and its 100% renewable growth strategy.
