

Press Release

ERG and Duferco Energia sign an agreement for the supply of 500 GWh of wind energy in Italy

Genoa, 20 December 2024 – ERG, a leading independent producer of renewable energy, and Duferco Energia, a company of the Duferco Group among the leading suppliers of electricity and gas in Italy, have signed a 5-year Pay as Produced Power Purchase Agreement (PPA) for the supply of approximately 100 GWh per year of green energy produced by the Rotello wind farm in Molise with an installed capacity of 42 MW. The wind farm will be out of its incentivization period starting in 2025.

Paolo Merli, CEO of ERG, has commented: *"The agreement with Duferco Energia, a leading international industrial player, aligns with our strategy to secure revenues for both new assets and those approaching the end of their incentivization period, such as the Rotello wind farm. This contract further strengthens the Group's leadership in the PPA market, key for stabilizing revenues in a highly volatile scenario."*

"The PPA signed with ERG, Italy's leading wind energy producer, confirms our commitment to sustainability and energy transition," **Massimo Croci, CEO of Duferco Energia has commented.** *The agreement is an important source of diversification of our portfolio and confirms our energy supply strategy from renewable sources in the PPA market where we are committed to increase our share in Italy and Europe."*

ERG

ERG Group is a leading independent operator of clean energy from renewable sources, operating in nine European countries and the United States. As the foremost onshore wind operator in Italy and among the top ten in Europe, the group is also active in solar energy production (ranking among the top ten operators in Italy) and in the battery storage sector. In just over a decade, ERG has significantly transformed its business portfolio, anticipating long-term energy scenarios and successfully transitioning from an oil operator to a pure wind and solar business model.

DUFERCO ENERGIA

Duferco Energia SpA is a company of the Duferco Group, one of the leading operators in the Italian energy market. Founded to manage the Group's investments in plants producing electricity from renewable sources, it has later focused on energy management, gas and energy efficiency and sustainable mobility services including different markets. Headquartered in Genoa and employing more than 400 people, the company has been operating in the Italian market since 2010 and offers energy services to more than 500,000 customers. As of today Duferco Energia is also one of the leading Italian players in the sustainable mobility market, with a network enabled for its charging services of over 25,000 charging points in Italy and develops energy efficiency and renewable production projects.
