ERG enters CDP's "Suppliers Engagement Leaderboard" with an A rating

Genoa, 10 Feb. 2022 - ERG has entered the CDP (Carbon Disclosure Project) "Suppliers Engagement Leaderboard", which brings together the best-performing companies globally in the creation of a sustainable supply chain.

Amongst more than 13,000 companies assessed in 2021, ERG is among the 8% of companies who have received an 'A' rating - the highest on the scale created based on CDP's 'Climate Change' questionnaire. ERG's performance previously received a 'B' rating in 2019 and an 'A-' rating in 2020.

The award recognises the foundations of the Sustainable Procurement project. As part of this project, ERG is committed to ensuring the sustainability of the entire *supply chain*. It does so through actions to measure and reduce environmental risks, in line with the United Nations Sustainable Development Goals (SDGs).

This important rating comes on top of Sustainable Procurement's other prestigious achievements in 2021, including awards in ADACI's "Value Chain Collaboration" and in the "Ethical and Sustainable Procurement" category at "The Procurement Awards".
