

**Who would you recommend this to?**

[D.Cavallino] I would recommend this seminar to all colleagues who feel they have something more inside them to give. To everyone who has a flame that can shed light on their future. Basically, to everyone who wants to be extraordinary, rather than mediocre.

[L.Fusco] I would recommend it to people who work for a company in the economic sphere, but I would also recommend it to people who, although they don't work in the economic sphere, are interested in understanding how it works from the inside, from inside a company and also to people interested in understanding how the economy works in general and all the macroeconomic variables that direct the choices of large companies.

[C.Ippolito] I would recommend it to absolutely everyone, even those who think they don't need it. Actually, to them most of all. Enjoy the course!
