

Press Release

ERG completes acquisition of three wind farms in Germany with total capacity of 34 MW.

Installed power in the country increases to 272 MW.

Genoa, 13 September 2019 – ERG, through its subsidiary ERG Windpark Beteiligungs GmbH, having obtained authorisation from the antitrust authorities and agreement to the change of control on the part of the lending institutions, has today finalised the acquisition, from a company controlled by the German investment firm Aquila Capital, of a 100% equity stake in three German companies, owners of a corresponding number of wind farms located in the Mecklenburg-Western Pomerania region of north-east Germany (see PR dated 19 August 2019).

The transaction will allow ERG to expand its presence in the German onshore wind power market, taking its installed power in the country to 272 MW, and to achieve well ahead of schedule the Mergers & Acquisitions objectives envisaged in the Business Plan with a view to supporting growth.

This press release, issued at 6.00 p.m. (CEST) on 13 September 2019, is available to the public at the offices of Borsa Italiana S.p.A., on the eMarket Storage authorised storage mechanism (www.emarketstorage.com) and on the Company's website (www.erg.eu) in the section "Media/Press Releases".
