

REPORT ON CORPORATE GOVERNANCE AND OWNERSHIP

EVOLUTION OF APPROACH

The current governance structure of ERG S.p.A. (hereafter, also the “Company”) has been developed over time by gradually introducing, into the ERG corporate approach, rules of conduct reflecting the most advanced, recognised principles of corporate governance.

Even before the company was listed in October 1997, one of its key features was a focus on a proper relationship between management and Shareholders and on ensuring that business operations be directed towards value creation.

This corporate policy was implemented via:

- coordinated delegation of powers within the Board of Directors in such a way as to assure (a) clarity and completeness of executive accountabilities and (b) monitoring of activities and assessment of results achieved;
- regular and adequate reporting to the Board of Directors on actions taken in the exercise of powers and of managerial responsibilities;
- adoption of specific procedures to determine remuneration for directors and management.

Its presence on the stock market has clearly accentuated the company’s propensity to base its conduct on the criteria of transparency and correctness. It has also accelerated the process of adapting both internal regulations and organisation to meet these criteria.

This corporate policy was therefore put into effect by means of:

- amendments to the Articles of Incorporation to bring them into line with the regulatory changes introduced by the Italian Company Law Reform, by law provisions on the matter of Shareholders’ Rights on transactions with related parties and, lastly, on gender balance in the composition of corporate bodies;
- adoption of a Code of Ethics as a tool for defining and communicating the duties and responsibilities of ERG S.p.A. towards its stakeholders, and as an imperative element of an organisation and management model consistent with the requirements of Italian Legislative Decree no. 231/2001, most recently updated on 26 February 2013;
- acceptance of the Italian Corporate Governance Code for Listed Companies, promoted by Borsa Italiana S.p.A. (“Corporate Governance Code¹”) since its first edition in 1999;
- adoption of a Code of Conduct for the directors of ERG Group companies;
- appointment of independent directors and non executive directors to the Board;

¹ On 30 July 2012, the Board of Directors resolved to adhere to the new edition of the Corporate Governance Code published in December 2011 with the exception of the different choices already made by the Board, to be adequately pointed out in the pertinent section of this report; consequently, all references to the provisions of the Corporate Governance Code shall be deemed to refer to the aforesaid edition of the Code.

- adoption of a Policy for the compensation of members of the Board of Directors, and of the key managers as prescribed by the Corporate Governance Code, most recently revised on 18 December 2012, to align the interests of management with those of Shareholders and strengthen the relationship between managers and the Company, both in terms of awareness of the importance of the stock value and its continuity over time;
- definition of guidelines for the identification and execution of significant transactions, most recently revised on 10 May 2012, and of other governance documents designed to assure transparent and timely management of the ERG Group's relationship with the market;
- adoption of a Procedure for handling and processing privileged information and for the public dissemination of statements and information, most recently revised on 10 May 2012;
- adoption of an integrated risk management model, with the objective of identifying, as exhaustively as possible, the risks inherent in the ERG Group's full range of business activities;
- adoption of a specific Procedure to assure the transparency and the substantial and procedural correctness of transactions with related parties carried out by ERG S.p.A. directly or through its subsidiaries, most recently updated on 6 August 2012.

CORPORATE GOVERNANCE

ERG S.p.A.'s corporate governance system complies with the requirements of the Italian Civil Code and of other specific regulations relating to companies – particularly those contained in the Italian Consolidated Finance Act – and is consistent overall with the Italian Corporate Governance Code for Listed Companies, which has been revised and updated over the years³. The edition of the Corporate Governance Code to which the Company adheres is available to the public at the Website of Borsa Italiana S.p.A. (www.borsaitaliana.it).

ERG corporate governance comprises the statutory bodies, board committees and documents that regulate their operation.

² Implementing the aforesaid resolution, the Board of Directors decided, on 10 May 2012, to launch a program for the acquisition of treasury shares as a result of which the Company reached the number of 7,516,000 treasury shares held, i.e. 5.000% of share capital.

At the proposal of the shareholders Polcevera S.A., the Shareholders' Meeting of 20 April 2012 confirmed Riccardo Garrone⁶ as Honorary Chairman of the Board of Directors.

In accordance with the Articles of Incorporation, the Company is managed by a Board of Directors which, in compliance with the gender balance criterion prescribed by current law and regulatory provisions, consists of no fewer than 5 and no more than 15 members.

Directors are appointed on the basis of lists presented by Shareholders – in which the candidates shall be listed with a progressive number – which, accompanied by information on the personal and professional characteristics of the candidates and a declaration of whether they meet the independence requirements prescribed by the Italian Consolidated Finance Act, must be filed, in compliance with Article 147-ter, paragraph 1-bis of the Consolidated Finance Act, at least twenty-five days prior to the date of the Shareholders' Meeting and shall be made available to the public at least twenty-one days prior to the Meeting.

The lists may only be presented by Shareholders who, either individually or with other Shareholders, represent the minimum percentage of share capital (currently, 2.5%)⁷ established in accordance with Article 144-quater of the Regulations implementing the Consolidated Finance Act, adopted by CONSOB with resolution no. 11971 of 14 May 1999 ("Issuers' Regulations").

At the time of appointment of the Board of Directors currently in office, the shareholding required in order to present the lists was equal to 2% of the share capital⁸.

⁵ For the percentage of votes received by the list with respect to the voting share capital, please see the minutes of the Shareholders' Meeting of 20 April 2012, available in the Governance section of the Website www.erg.it.

Each shareholder may present or contribute to present only one list and each candidate may be included in only one list, under penalty of ineligibility. Each list shall contain a number of candidates not exceeding the maximum number of directors set out in the first paragraph of Article 15 of the Articles of Incorporation and, with the exception of those that present fewer than three candidates, it shall comply with the gender balance criterion prescribed by current laws and regulations.

The lists indicate which Directors fulfil the independence requirements set by Article 147-ter, paragraph 4 of the Consolidated Finance Act. At least one candidate for each list, or two candidates if the Board of Directors has more than seven members, must fulfil the aforesaid independence requirements.

All candidates must fulfil the integrity requirements set out by current regulations for members of the controlling Bodies, as well as adequate professionalism requirements for the office to be held.

Together with each list, by the deadline indicated above, each candidate must file the statement accepting his/her candidacy and declaring under his own responsibility that there are no causes for ineligibility and incompatibility and that the requirements prescribed by applicable regulations are met, and indicating whether (s)he qualifies as independent director. For the purposes of the allotment of the Directors to be elected, no consideration is given to the lists that did not obtain as many votes as represent a percentage of the share capital at least equal to half the percentage required for the presentation of the lists.

Each person entitled to vote may vote only one list.

The election of the Directors takes place as follows:

- a) from the list that received the majority of the votes cast are drawn, in the progressive order in which they are listed, a number of Directors equal to the number of members to be elected minus one, subject to the provisions of Article 15, paragraph 5 and 5-bis of the Articles of Incorporation respectively for the appointment of independent Directors and to compliance with the gender balance criterion in the composition of the Board of Directors;
- b) the remaining Director is drawn from the minority list that received the highest number of votes;
- c) if a single list is presented, or if the required quorum is not reached by the other lists, all Directors shall be elected from the presented list or from the list that reached the quorum, subject to the provisions of Article 5-bis of the Articles of Incorporation with respect to compliance with the gender balance criterion in the composition of the Board of Directors.

In any case, the election will be won by the candidate or, if the Board has more than seven members, the first two candidates from the list that received the highest number of votes, who fulfil the independence requirements, in the progressive order in which they were entered in the list⁹.

⁹ For more information, including information about the provisions aimed at assuring compliance with the gender balance criterion in the composition of the Board of Directors, please refer to the Articles of Incorporation, available in the Governance section of the website www.erg.it.

The Board of Directors, in the first meeting after the appointment – held on 20 April 2012 – positively assessed the Directors’ independence both with reference to the provisions of Article 148, third paragraph, of the Italian Consolidated Finance Act and with reference to the Corporate Governance Code, thus preferring substance over form¹⁴.

The Board of Statutory Auditors verified the correct application of the criteria and verification procedures adopted by the Board of Directors to assess the independence of its members.

10 For the personal and professional characteristics of each director in office, please see their CVs available in the Governance section of the website www.erg.it.

11 Serves as Director in charge of the Internal Control and Risk Management System (formerly, executive Director appointed to supervise the functionality of the Internal Control System).

12 Taking into account application standard 2.C.1 of the Corporate Governance Code.

13 Independence was assessed by the Board of Directors in accordance with the Consolidated Finance Act and with the Corporate Governance Code.

14 In particular, the Board of Directors, in the aforesaid meeting of 20 April 2012, with reference to the fact that Directors Massimo Belcredi, Antonio Guastoni and Paolo Francesco Lanzoni would exceed, during their term in office, the nine-year limit set out by application standard 3.C.1 letter e) of the Corporate Governance Code, deemed that (i) the automatic enforcement of this limit for the purposes of assessing independence would not have been in line with the spirit of the Corporate Governance Code; (ii) the overall profile of the aforesaid Directors – and their history with the Company – offered sufficient guarantees in terms of their independent mindedness. With reference to the appointments reported by Director Antonio Guastoni – Director and Deputy Manager in Sampdoria Holding S.p.A., a subsidiary of San Quirico S.p.A. (office of Deputy Chairman held until 5 September 2012, without executive powers and/or signature and/or delegation powers) – and by Director Paolo Francesco Lanzoni – Chairman of the Supervisory Committee of ERG Renew S.p.A., ERG Nuove Centrali S.p.A., ERG Power S.r.l., ERG Oil Sicilia S.r.l., ISAB Energy S.r.l. and ISAB Energy Services S.r.l. (directly/indirectly controlled by ERG S.p.A.) – as had been assessed by the previous Board of Directors in 2011, deemed that the aforesaid offices were irrelevant for the purposes of their independence and that the compensation received for their participation in the Supervisory Bodies per Italian Legislative Decree 231/2001 (control bodies with external relevance) were akin to the case contemplated by application standard 3.C.1 letter d) of the Corporate Governance Code, which explicitly refers to additional compensation for participation in committees within the Board, recommended by the Code itself.

With regard to the composition of the Board of Directors and the distribution of offices and powers within it, it was not considered necessary to designate a lead independent director as provided by application criterion 2.C.3 of the Corporate Governance Code.

During 2012, the independent Directors held their own meeting without the other directors present, but remained in contact and regularly consulted each other in advance on the principal matters examined by the Board of Directors.

Directors' compensation and remuneration

In accordance with the Corporate Governance Code, the Board of Directors, at the proposal of the Nominations and Remuneration Committee, on 20 December 2011 approved its Policy for the remuneration of the members of the Board of Directors and of Key managers¹⁶.

Directors' remuneration is determined, for each financial year, by the Shareholders' Meeting called to approve the Financial Statements.

The Shareholders' Meeting also fixes the remuneration of the Directors serving on the following committees within the Board: Internal Control and Risk Committee¹⁷ and Nominations and Remuneration Committee.

The remuneration of the Chairman, of the Deputy Chairmen, of the Chief Executive Officer and, more in general, of Directors with delegated powers or appointed to carry out particular duties and of the Directors appointed to the Strategic Committee that do not hold positions in the Board of Directors, is set by the Board of Directors on the basis of a proposal formulated by the Nominations and Remuneration Committee, after obtaining the opinion of the Board of Statutory Auditors.

¹⁵ Other than offices held in companies of the ERG Group.

¹⁶ The Shareholders' Meeting held on 20 April 2012 voted in favour of the first section of the Report on Remuneration prepared in accordance with Article 123-ter of the Italian Consolidated Finance Act.

¹⁷ The former Internal Control Committee. The different name was assigned as a result of the Company's adherence to the new edition of the Corporate Governance Code published in December 2011.

With reference to the Directors in office, the members of the Nominations and Remuneration Committee contributed to formulate the aforesaid proposals also on the basis of elements initially not contemplated by the Remuneration Policy which, adopted by the Company on 20 December 2011, did not take into account the different delegated powers decided by the new Board of Directors on 20 April 2012, and – for the aforesaid reasons – on the basis of the Procedure for Transactions with Related Parties.

The Board of Directors, at the proposal of the Nominations and Remuneration Committee, on 18 December 2012 approved the revision of the Remuneration Policy in order to take into account the aforesaid delegation of powers and the medium/long term incentive Systems (LTI System)¹⁸.

Powers

The Board of Directors vested:

- the Chairman Edoardo Garrone with the power to manage the staff functions carried out by the Institutional & International Relations Division with respect to external relations and to Corporate Social Responsibility and the General Secretariat functions within the scope of the Corporate Affairs Division, with responsibility for supervision, direction and control¹⁹;
- the Deputy Chairman Alessandro Garrone with the power to supervise preliminary and functional activities for the definition of the Company's and of the Group's strategic objectives and for the preparation of the related Strategic Plan, to be submitted to the Board of Directors for review and approval or disapproval; consequently, to provide strategic coordination to subsidiaries; to exercise supervision and control over activities for the preparation of draft budgets to be submitted for review and approval or disapproval by the Board of Directors; to conduct direction and supervision activities in the search, preparation and negotiation with third parties of Merger & Acquisition projects and in structured finance transactions, which in view of their significance are subject to the approval of the Board of Directors; to supervise the definition of the Company's organisational structure to the second reporting level down from the Chief Executive Officer, concurring with the CEO on decisions pertaining to the appointment of directors and executives, to the termination of any employee and to remuneration and incentive policies;
- Chief Executive Officer Luca Bettonte²⁰ with the powers necessary to carry out all actions pertaining to the company's business;
- Director Graziella Merello with the power to oversee the Internal Audit, Risk and Compliance Division, with responsibility for supervision, direction and control²¹.

In accordance with the Articles of Incorporation, the Chairman has the power to represent the Company pursuant to Article 2384 of the Italian Civil Code. The Chief Executive Officer(s) also has/have such powers, within the limits of the authority vested in them.

18 For any additional information on this matter, please refer to the Report on Remuneration pursuant to Article 123-ter of the Consolidated Finance Act, to be presented to the Shareholders' Meeting convened in April 2013, among other matters, in accordance with Article 2364, second paragraph, of the Italian Civil Code.

19 Assignment of these managerial powers, with particular but not exclusive reference to the activities of the General Secretariat within the Corporate Affairs Division, takes into account the role carried out as Chairman of the Board of Directors and by the provisions of the Corporate Governance Code (Comment to Article 2, fifth paragraph).

20 The interlocking directorate situation, contemplated by application standard 2.C.5. of the Corporate Governance Code, does not apply. Additionally, on 10 May 2012 the Chief Executive Officer resigned from the office of Corporate General Manager. The Board of Directors, on the same date, taking into account the Company's organisational structure resulting from the appointment of the new Board of Directors, resolved not to appoint a new Corporate General Manager.

21 Formerly, Internal Audit Division and Risk Office function.

The Board of Directors, in accordance with the recommendations of the Corporate Governance Code, specified that the powers vested in the Deputy Chairman and in the Chief Executive Officer shall be exercised within the scope of the directives and instructions imparted to them by the Board of Directors which shall retain, in addition to the powers that may not be delegated as prescribed by law or by the Articles of Incorporation, the authority to review and approve significant transactions identified on the basis of the criteria set out in the Guidelines for identifying and carrying out significant transactions, approved by the Board of Directors.

The delegated bodies report to the Board of Directors, on a quarterly basis, on the activities carried out within the scope of the powers vested in them.

Frequency of Board meetings

As prescribed by the Articles of Incorporation, the Board of Directors meets at least once a quarter to inform the Board of Statutory Auditors on the Group's activities and on the most important business, financial and capital transactions undertaken by the company or its subsidiaries, and particularly those where there may be a potential conflict of interest.

During the 2012 financial year, the Board of Directors held 10 meetings, while for the year 2013 there are expected to be no fewer than 6 meetings.

In the 2012 meetings, the Board of Directors passed resolutions pertaining to 53 issues and for 36 of them the related documentation was sent to Directors and Statutory Auditors beforehand (at least 48 hours before the meeting, barring exceptions)²² said advance notice being deemed suitable to enable Directors and Auditors to acquire adequate knowledge of the items in the agenda.

The average duration of the meetings held by the Board of Directors was 2 hours and 46 minutes. As of the date of approval of this document, the Board of Directors had held 2 meetings.

Activities pursued

Directors made a significant contribution to the work of the Board of Directors and Committees in 2012, in terms of meeting attendance and effective participation in proceedings.

In the course of 2012, the Board of Directors performed the activities and responsibilities referred to in application criterion 1.C.1 of the Italian Corporate Governance Code in accordance with the role that the Code attributes to the Board of a listed company.

With regard in particular to subparagraph g) of this criterion, the Board of Directors, at its meeting of 30 July 2012, carried out a review, partly on the basis of a document prepared for this purpose by the Nominations and Remuneration Committee, of the size, composition and functions of the Board of Directors and Committees during 2011, expressing, in this regard, an overall favourable opinion accompanied by specific indications with respect to the operation of the Board of Directors and of its committees²³. This document was prepared applying the assessment criteria already employed in past years²⁴.

22 In the resolutions with respect to which the related documentation was not sent to Directors and Statutory Auditors beforehand, 5 pertained to topics with respect to which the Nominations and Remuneration Committee or the Control and Risk Committee had carried out preparatory work, 7 were taken up by the Board of Directors upon specific proposals by the Directors during Board meetings.

23 This assessment refers to the year 2011 and, hence, to the previous Board of Directors and its Committees whose members, in relation to the Nominations and Remuneration Committee and to the Internal Control and Risk Committee, were confirmed in office by the current Board of Directors, appointed by the Shareholders' Meeting of 20 April 2012.

24 With the exception of the self-assessment questionnaire – prepared by the Corporate Affairs Division at the request of the Nominations and Remuneration Committee – sent to the members of the Board of Directors and of the Board of Statutory Auditors within the Board Performance Review process for the year 2010, not used in the assessment process for the year 2011 in view of the appointment of the new Board of Directors by the Shareholders' Meeting on 20 April 2012. The document is available in the Governance section of the website www.erg.it.

Pursuant to application criterion 1.C.3. of the Italian Corporate Governance Code, the Board of Directors acknowledged that, in light of the findings set out in the document prepared by the Nominations and Remuneration Committee, it no longer seems necessary to set a limit on the number of directorships and auditorships in other listed companies and in finance, banking, insurance companies or companies of significant size for members of the Board of Directors that is different from the current number as shown in the disclosure they provided for the purposes of their candidacy and subsequent appointment to Directors of the Company, which took place on 20 April 2012.

The Chairman of the Board of Directors ensured that during the meetings of the of the Board of Directors and of the Committees within the Board, in relation to the topics discussed, the Chief Executive Officer and representatives of the ERG Group's managers provided all directors with the necessary information for adequate knowledge of the industry where the Group operates, of corporate performance and its trends and of the reference regulatory framework. During the year, the Chairman also pointed out to Directors, with the aforesaid purposes, specific initiatives and events organised by major entities.

BOARD OF STATUTORY AUDITORS

The Board of Statutory Auditors was appointed by the Shareholders' Meeting held on 15 April 2010 and its term of office shall expire at the date of the Shareholders' Meeting convened for approval of the Financial Statements as at 31 December 2012.

For the appointment of the Board of Statutory Auditors, only one list of candidates was presented by the shareholders San Quirico S.p.A.²⁵, i.e.:

Mario Pacciani - *Standing Auditor*

Lelio Fornabaio - *Standing Auditor*

Paolo Fasce - *Standing Auditor*

Vincenzo Campo Antico - *Alternate Auditor*

Fabio Porfiri - *Alternate Auditor*

Stefano Remondini - *Alternate Auditor*

In accordance with the Articles of Incorporation, the Shareholders' Meeting shall elect the Board of Statutory Auditors, consisting of three standing auditors and three alternate auditors in compliance with the gender balance criterion prescribed by current laws and regulations. The Board of Statutory Auditors is appointed on the basis of lists presented by Shareholders, which, in compliance with Article 147-ter, paragraph 1-bis of the Consolidated Finance Act (referenced by Article 148, paragraph 2 of the Consolidated Finance Act), must be filed at least twenty-five days prior to the date of the Shareholders' Meeting and shall be made available to the public at least twenty-one days prior to the Meeting.

Each list consists of two sections: one for candidates to the office of standing auditor and the other one for candidates to the office of alternate auditor. Each list shall contain a number of candidates, listed with a progressive number, not exceeding the maximum number of auditors to be elected and, with the exception of those presenting fewer than three candidates, it shall comply, for each section, with the gender balance criterion prescribed by current laws and regulations.

Candidate lists may only be presented by Shareholders who, at the time of presenting the list, are in possession of a shareholding equal to that required for the presentation of lists for the election of Directors, currently equal to 2.5%²⁶.

²⁵ For the percentage of votes received by the list with respect to the voting share capital, please see the minutes of the Shareholders' Meeting of 15 April 2010, available in the Governance section of the Website www.erg.it.

²⁶ Updated on the basis of the Company's market capitalisation as at 31 December 2012 calculated as the average of the last quarter before the end of the 2012 financial year.

At the time of appointment of the Board of Statutory Auditors currently in office, the shareholding required in order to present the lists was equal to 2% of the share capital²⁷.

No Shareholder may present or vote for more than one list and each candidate may be included in only one list, failing which he or she shall be disqualified.

The lists contain not only information about the Shareholders who submitted them and the statements made by them pursuant to the applicable regulations, but also exhaustive information about the candidates' personal and professional characteristics and their statements pursuant to the Articles of Incorporation.

Candidates may not be elected to the office of Statutory Auditor unless they satisfy the requirements of independence, professionalism and integrity as provided by Article 148, paragraph 3 of the Italian Consolidated Finance Act or if they already serve as Standing Auditor in five listed companies²⁸.

If, at the expiration of the term for the presentation of the lists as indicated above, a single list was filed, or only lists presented by mutually connected Shareholders, according to the definition set out in the applicable regulations, were filed, then lists may be presented – in accordance with Article 144-sexies, paragraph 5 of the Issuers' Regulations – until the third day after that date. In this case, the thresholds required for presentation of the lists are halved.

Any list presented without compliance with the required prescriptions²⁹ shall be considered not to have been presented.

If no list is presented in spite of the completion of the aforesaid procedure, a majority vote shall be taken in order to ensure that the composition of the Board of Statutory Auditors complies with current laws and regulations and with the Articles of Incorporation. The Shareholders' Meeting appoints the Chairman.

If no second list is presented or voted, the entire Board of Statutory Auditors shall comprise, in the order of presentation, the candidates of the single list voted. The first person on the list is elected Chairman.

Employees of ERG Group companies, representatives of the independent auditor, members of the Board of Statutory Auditors and, in general, persons whose presence is deemed necessary or appropriate for the discussion of the agenda items may be invited to attend Committee meetings.

Tasks

The Nominations and Remuneration Committee – which carries out the duties prescribed by the Corporate Governance Code for the Remuneration Committee³⁴ – makes recommendations to the Board of Directors regarding the remuneration of the Chairman, Deputy Chairmen, CEO and, more in general, of Directors with powers or specific duties and of the Directors called to serve on the Strategic Committee who do not hold positions in the Board of Directors and, upon indication of the CEO, regarding the determination of criteria for the remuneration of the Company's top managers and for the definition of incentive plans for the ERG Group's management. The Committee periodically assesses the adequacy, overall consistency and concrete application of the Remuneration Policy for members of the Board of Directors and Key managers.

Taking into account the composition of the Nominations and Remuneration Committee, the Procedure for Transactions with Related Parties, approved by the Board of Directors, prescribes that the Committee convened to issue its opinion both with reference to transactions of "Minor Relevance" and with reference to transactions of "Major Relevance" (i) on the interest of the Company in the completion of transactions pertaining to the assignment or increase of remuneration and economic benefits, in any form, to a member of a governing or controlling body of the Company or to a Key manager thereof or otherwise to one of the persons holding the offices indicated in Annex 1 to the Procedure for transactions with related parties and (ii) on the advantageousness and substantial correctness of the related conditions shall comprise members of the Nominations and Remuneration Committee, unless the aforesaid transactions in accordance with Article 3.2, Letter c) of the Procedure are not excluded from the scope of said Procedure³⁵.

The members of the Nominations and Remuneration Committee formulated the aforesaid proposals or assessments also taking into account the Procedure for transactions with related parties, issuing – when required – its opinion with the reasons for it.

The Committee also actively participated in the process for the design and subsequent adoption of a new short-term incentives system – the MBO System³⁷, and of the new medium-long term incentives systems undergoing design – the LTI System³⁸.

The MBO System and the LTI System are integral, substantial parts of the Remuneration Policy for the members of the Board of Directors and Key managers adopted by the Board of Directors – always at the proposal of the Nominations and Remuneration Committee – on 20 December 2011 in accordance with the Corporate Governance Code most recently revised on 18 December 2012 to take into account the powers delegated by the new Board of Directors of ERG S.p.A. – appointed by the Shareholders' Meeting of 20 April 2012 – and the medium/long term incentive System (LTI System).

The Division also verifies whether the risks are managed in accordance with the decisions of the Board of Directors, with external rules and with rules within the Group.

The Head of Internal Audit, Risk and Compliance is not responsible for any operating area; (s)he reports hierarchically to the Board of Directors through the Director in charge of the Internal Control and Risk Management System and (s)he provides all due information to the Internal Control and Risk Committee and to the Board of Statutory Auditors. The annual work plan, based on a structure process of analysis and prioritisation of the main risks ("Audit Plan"), similarly to the budget, is subject to the approval of the Board of Directors⁴⁷. Moreover, within the scope of the audit plan, the Internal Audit Risk and Compliance Division shall verify the reliability of the information systems including the accounting measurement systems.

At least twice a year, it prepares a summary of the main observations emerged and of the corporate risks to be monitored (Risk Report) which includes an assessment of the suitability of the CIGR System. The findings of these reports are presented to the Director in charge of the Internal Control and Risk Management System, to the Internal Control and Risk Committee, and to the Board of Statutory Auditors.

The Chairmen of the Board of Directors, of the Board of Statutory Auditors and of the Internal Control and Risk Committee, as well as the Director in charge of the Internal Control and Risk Management System are recipients of non-periodic information flows, generated by the Internal Audit, Risk and Compliance Division, in such a way as to assure their simultaneous involvement.

4. IMPLEMENTATION OF THE INTERNAL CONTROL AND RISK MANAGEMENT SYSTEM

ERG considers proper risk management and mitigation to be of fundamental importance: for this reason, the Top Management has deemed it appropriate to define a risk management Policy able to explain the relationships between risk management and processes to identify

objectives and management plans in order to define the procedures to select the different strategies and risk protection techniques, assigning formal management responsibilities within the organisation. This framework has entailed the preparation, on one hand, of an organisation able to provide a clear allocation of the governance, monitoring and reporting responsibilities, on the other hand to institute an inter-relationship between the functions and the bodies assigned to carry out risk management and control activities. More in detail, the Corporate Governance System adopted by ERG entails the institution of specific committees (e.g. Strategic Committee, Investment Committee, Risks Committees, Loans and Credits Committee), tasked with studying issues, providing advice and/or making proposals in relation to particular sensitive” and economically, financially and strategically relevant matters, so that on such issues it will be possible both to conduct a debate and a series of checks that will lead to the adoption, by the Board of Directors, of knowledgeable, clearly represented decisions. These committees concur in the definition of the methods for measuring, identifying, assessing and controlling risks, and they provide advice and make proposals to the Chief Executive Officer in relation to:

- definition of risk management strategies and policies;
- assessment of the most relevant transactions and analysis of the associated risks;
- monitoring the progress of the most relevant transactions and verification of the enforcement of risk management policies.

Within this scope, the risk management process develops through:

- the identification and assessment of the main strategic risks tied to the Business Plan and to extraordinary transactions, as well as the definition of the policies required to mitigate them;
- the identification and assessment of the main risks tied to business processes, as well as the definition of the procedures to manage them and of the control instruments;
- the continuous verification of the operation and effectiveness of the risk management process.

The aforementioned steps are described in detail below.

MANAGEMENT OF STRATEGIC AND DISCONTINUITY RISKS

In relation to the management of the risks tied to the Business Plan and to extraordinary transactions, it should be pointed out that decisions of a strategic nature are made by the Board of Director on the basis of a risk assessment carried out with the support of the Strategic Committee and of the Investment Committee. The Executive Deputy Chairman and the Chief Executive Officer, members of these Committees, periodically report to the Board of Directors also with regard to the main prospective risks, in terms of strategic decisions and investment. The process, aimed at the definition of the strategic risks related to the Group’s investments and to significant transactions, initially involves the Investment Committee, which expresses a technical and economic-financial opinion on them, and subsequently the Strategic Committee, which assesses the desirability of proceeding with them. The process, following these assessment steps, enables the Board of Directors to carry out its role concerning the strategic decisions, and in relation to the significant investments the Group intends to make. The Board of Directors decides both with respect to investments and in relation to the risks to be assumed, overseeing the ex post management of the transactions and of the related risks.

The Chief Executive Officer has responsibility and accountability for the management of corporate risks and is supported by the Management in the identification and assessment of the risks, as well as in the definition of the policies for their management. In this regard, (s)he is also supported by the Strategic Committee and by the Investment Committee.

MANAGEMENT OF PROCESS RISKS

The management of process risks is performed by the company’s Management, which is responsible for their assessment and for the definition of the mitigating instruments. To manage process risks, Management uses a risk self-assessment instrument: the Business Process Risk

Assessment. The Business Process Risk Assessment (BPRA) enables the Management to monitor the riskiest areas on the basis of an assessment of the level of adequacy of the design of the controls, in order to mitigate the associated risks, pointing out areas deserving attention, towards which the most appropriate action plans should be adopted. This activity, with the aid of the Internal Audit Risk and Compliance Division, involves the entire Management of the ERG Group in the identification of the process risks (business and corporate) and of the related associated controls.

Therefore, the BPRA is a valid support that enables the Management to manage the riskiest areas effectively.

A contribution to assure the effective operation of the CIGR System shall also be provided by the Manager responsible for preparing the company's financial reports, who assesses the adequacy and operation of the controls on the administrative-accounting processes, the Risk Committee, which provides advice and support to the Chief Executive Officer, in particular for the definition of the strategies and policies to manage financial and market risks, as well as the Loans and Credits Committee, which monitors and manages credit collection actions.

The significance of the risks, classified in categories and sub-categories, is determined on the basis of parameters measuring the likelihood of their occurrence and the impact, not just in economic terms, but also in terms of market share, competitive advantage and reputation.

The assessment of the control environment pertains to:

- the existence, the upgrade and compliance with internal regulations (e.g. guidelines, procedures);
- the adequacy of the organisational instruments (e.g. delegated powers and authority);
- the adequacy of the monitoring activities, reporting and internal communication;
- the adequacy of the information systems supporting process management.

CONTINUOUS VERIFICATION OF THE EFFECTIVENESS OF THE RISK MANAGEMENT PROCESS

This verification activity is the natural joining point between one risk management cycle and the next, and it provides the occasion to verify both the extent to which the objectives have been attained, and the correct implementation of the selected management procedures. Every deviation from the objectives and policies is subjected to analysis, to review the decision-making processes adopted and to identify the factors that hinder the success of the identified solutions. Based on the results of these analyses, if necessary, the redefinition of the management programmes can start.

The CIGR System, defined on the basis of domestic and international leading practices, consists of the following three levels of control:

- **First level:** entrusted to individual lines, they consist of the checks carried out by those who perform certain activities and by those who are responsible for their supervision. They also enable to assure the correct performance of the operating activities;
- **Second level:** entrusted to structures other than line, they contribute to the definition of the risk measurement methods, to their identification, assessment and control (Risk Management). They also enable to verify compliance with regulatory obligations (Compliance);
- **Third level:** entrusted to the Internal Audit, Risk and Compliance Division, their purpose is to identify anomalous trends, violations of the procedures and regulations, and to assess the functionality of the overall internal control and risk management system.

Within this context, the Director in charge of the Internal Control and Risk Management System focuses his/her activities on the main corporate risks, taking into account the objectives and characteristics of the activities performed by the ERG Group.

The Model contributes to strengthen the CIGR System, describing the measures and protocols aimed at reducing the risk of perpetration of offences within the corporate organisation.

The duty of the Supervisory Committee is to supervise the suitability to prevent the perpetration of the offences set out in the Model in accordance with Italian Legislative Decree no.231/2001 and to propose the adoption of new measures if the need arises, in order to make it current and effective at all times, adapting them to any regulatory and organisational changes that should occur over time.

INFORMATION ON THE MAIN FEATURES OF THE EXISTING INTERNAL CONTROL AND RISK MANAGEMENT SYSTEMS IN RELATION TO THE PROCESS OF FINANCIAL DISCLOSURE, INCLUDING AT A CONSOLIDATED LEVEL

The ways in which the ERG Group has defined its system for risk management and internal control in relation to the process of financial disclosure (henceforth referred to as “the System”) at the consolidated level are illustrated below. The purpose of the System is to mitigate risks significantly in terms of trustworthiness, reliability, accuracy and timeliness of financial disclosures.

The Model described below was presented to the Internal Control and Risk Committee of the listed Parent Company ERG S.p.A. and applies, from a logical point of view, in terms of methodology and as regards principles of process control and accuracy, to the main companies of the ERG Group to which it has been communicated through publication on the Company Intranet as well as communication to all personnel.

In such a context, all personnel of the ERG Group are obliged to follow the indications of the Model, in particular personnel in administrative functions that are more directly involved in the preparation of corporate accounting documents, but also those in other functions that, indirectly, contribute to the process through the preparation of documents and information, the inputting or updating of data in the company’s information systems, in normal operations.

The Model is regularly updated and each update and/or integration of significance must be submitted and presented in advance to the Internal Control and Risk Committee.

ROLE

The main responsibility of the Manager responsible for preparing the financial reports of ERG S.p.A. is to implement the administrative-accounting procedures that govern the process of the production of periodic corporate financial reporting, to monitor their application and, together with the Chief Executive Officer, to certify to the market that the above principles were followed and that the financial documentation circulated is reliable.

The figure of Manager Responsible fits into the wider framework of Corporate Governance, structured according to the traditional model with the presence of corporate bodies with diverse functions of control.

The Board of Directors, with its resolution of 15 December 2009, appointed Giorgio Coraggioso, Head of Administration, Reporting and Taxation, as the Manager Responsible for preparing the financial reports.

ELEMENTS OF THE SYSTEM

Methodological approach

Within the ERG Group it has been decided to adopt a working methodology that envisages the following logical steps:

- a) identification and evaluation of the risks applicable to financial reporting;
- b) identification of controls for risks identified both at the Company/Group level (entity level) and at the process level;
- c) evaluation of controls and management of the monitoring process both in terms of design, and in terms of operations and effectiveness, with the aim of reducing risks to a level considered “acceptable” (information flows, gap management, plan for remedial action, reporting system, etc.).

The complete process is managed by the Processes and Compliance function that operates as a staff function reporting to the Head of Administration and that, following standard practice, governs all administrative-accounting procedures, mapping and harmonising those in force by defining interventions at process level, information systems or procedures to rectify any control deficiencies.

Risk identification and assessment

Risk Assessment is conducted annually and has the goal of identifying, on the basis of a quantitative analysis and following evaluations and parameters of a qualitative nature:

1. the Companies within the ERG Group scope of consolidation to include in the analysis;
2. the risks at the level of the selected operating Company/Group (Company/Entity Level Controls) relating to the general corporate context of the Internal Control System, with reference to the five components of the CoSO model developed by the Committee of Sponsoring Organizations of the Treadway Commission, leading practice at the international level and recognised within Italy as a reference model by the Italian Stock Exchange Corporate Governance Code (control environment, risk assessment, information and communication, control activities, monitoring);
3. the general risks for the Company's information systems supporting related processes (IT General Controls);
4. the processes that generate, with inherent risk, the accounts of the Consolidated Financial Statements for each company selected;
5. for each relevant process, the specific risks for financial reporting, with particular reference to so-called financial statement assertions (existence and occurrence, completeness, rights and obligations, valuation and allocation, presentation and disclosure).

The process of Risk Assessment carried out at the level of consolidated Group financial statements in order to determine the appropriate scope of analysis, is based on the combined application of two analytical parameters, one quantitative and the other one qualitative.

As regards the fully quantitative part of the analysis, the following elements are determined:

- large portion (coverage of the Consolidated Financial Statements): this dimension is used to measure the extent of the area within which controls are to be analysed and evaluated, defined on the basis of the weight the dimensions bring to bear on the main items in the financial statements;
- significant accounts: this refers to the quantitative size that items in the financial statements must have in order to be considered significant after the application of a materiality threshold;
- significant processes: by means of account-process matching, processes are identified for which controls should be assessed, given that all processes associated with accounts that have balances greater than the materiality threshold form part of the model.

Following the quantitative analysis described above, the process of Risk Assessment then requires to perform an analysis based on qualitative elements, with a dual purpose:

- to complement the exclusively quantitative part of the analysis, so as to include or exclude accounts-processes from the scope of the model on the basis of knowledge the management has, from a historical point of view and also considering the expected evolution of the business, of companies making up the ERG Group, and on the basis of the professional judgement by management concerning risk levels relating to financial disclosures;
- to define the "level of depth" to which the analysed accounts-processes must be taken into consideration within the scope of the model and at what level the related controls must be mapped, documented and monitored.

The final result of the Risk Assessment process consists of a document that is circulated to the various functions involved, validated by the Manager Responsible and presented to the Internal Control and Risk Committee.

Identification of controls

Once the main risks at the process level are identified, the actions to be taken in order to monitor the associated control objective are identified. In particular, the mapping of accounts-processes and related controls constitutes a tool through which:

- significant processes and their principal associated risks are represented as defined within the scope of Risk Assessment, as are the controls that are envisaged for the management of such risks;
- the chart of mapped controls is evaluated to ascertain the capacity of each control to manage and mitigate an identified risk and, in particular, the underlying financial statements assertion;
- the operation and representation of a control is shared with its owners, as are the risks and control activities;
- monitoring activities, needed to support the representations that must be made by the Manager Responsible, are carried out.

The identification of risks and associated controls is carried out both with regards to controls relating to financial statement assertions and to other control objectives within the scope of financial disclosure, including:

- observance of authorised limits;
- the segregation of duties and responsibilities for operations and control;
- the physical security and existence of the company's assets;
- activities of fraud prevention that have an impact on financial disclosure;
- the security of company information systems and the protection of personal data.

The mapping generated from time to time for a specific process is also used as the basis for periodic testing activities whose goal is to evaluate and monitor both the chart and the effectiveness of controls in place.

Assessment of controls and monitoring processes

In accordance with the provisions of the law regarding formal compliance and in line with the best practices previously referred to, the adopted methodology prescribes constant monitoring of the processes covered by the model and effective execution of the mapped controls.

The objective of such monitoring is the evaluation of the operating effectiveness of the controls – in other words the effective functioning during the period of the controls mapped for the purpose of analysis. To this end, a plan is prepared annually of monitoring activities (also refining and optimising these, where necessary). The plan is formalised in a document that is presented to the Internal Control and Risk Committee and in which strategies and timing are defined for carrying out monitoring tests.

Following the completion of testing activities, reports are produced on the results of the activities, providing the support on the basis of which the Manager responsible for preparing the company's financial reports releases legal representations, and the Internal Control and Risk Committee, as regards the most important deadlines for half-yearly and annual financial reporting, evaluates and participates in the work of the Manager Responsible and the functions through which he/she operates.

THE INDEPENDENT AUDITORS

Deloitte & Touche S.p.A. was appointed as independent auditor for the years 2009-2017 by the Shareholders' Meeting held on 23 April 2009.

ORGANISATION AND MANAGEMENT MODEL PURSUANT TO ITALIAN LEGISLATIVE DECREE 231/2001

With the resolution passed on 21 December 2004, the Board of Directors adopted the Organisation and Management Model of ERG S.p.A. pursuant to Italian Legislative Decree 231/2001; since then, the Model has been updated periodically to adapt it to the regulatory changes subsequently introduced. In the second half of 2012, the Model was updated, in particular to take into account the organisational changes that took place during the year and the introduction of the following offences to the existing ones: "employment of citizens of third party countries with irregular permits of stay", "undue incitement to give or promise benefits" and "corruption between private individuals". The Board of Directors, with its meeting of [26 February 2013], approved the new version of the Model, an excerpt whereof is published in the "Governance" section of the website www.erg.it.

Together with the new version of the 231 Model, the Board of Directors also approved the "Guidelines for the adoption of the organisation and management model pursuant to Legislative Decree 231/2001 in the Companies of the ERG Group", whose purpose is to provide the ERG Group companies with methodological indications on the management of "231 compliance", without constituting management and coordination activities and subject to the liability of individual legal entities in the decision as to whether or not to devise a Model on the basis of their own risk assessment.

SUPERVISORY COMMITTEE

Introduction of the Model led to the appointment of the Supervisory Committee, tasked with assuring the adequacy and actual implementation of the Model, and to evaluate whether it is necessary subsequently to update it.

The Committee, as a result of the decisions reached by the Board of Directors during its meeting of 18 December 2012, comprises: Paolo Francesco Lanzoni, Chairman, Devan De Paolis, and Alberto Fusi.

The Supervisory Committee carries out its work within the Parent Company ERG S.p.A., whereas Subsidiaries, provided with their own Model, have appointed their own Supervisory Committee. The Supervisory Committee of ERG S.p.A. met 5 times in 2012.

Investor relations

The company manages relations with its Shareholders, institutional investors and the market through the Investor Relations function, which is a part of the Finance and Control Division. As part of investor relations activities, meetings are regularly arranged both in Italy and abroad with representatives of the financial community. ERG S.p.A.'s policy is to provide the fullest possible information on its activities and strategies, including through constant innovation and updating of its website. The person in charge of managing investor relations is Ms. Emanuela Delucchi.

Management and coordination

ERG S.p.A. is a subsidiary of San Quirico S.p.A. which does not however exercise any management and coordination activity over its subsidiary, within the meaning of Articles 2497 et seq. of the Italian Civil Code, also in view of the fact that a provision of its Articles of Incorporation expressly prohibits the company from carrying out management and coordination activities with regard to its subsidiaries.

This circumstance is periodically evaluated by the Board of Directors, also on the basis of a preliminary review carried out by the Internal Control and Risk Committee.

ERG S.p.A. in turn performs management and coordination on direct or indirect subsidiaries. The scope of involved companies and the content of any activity carried out on each of them are periodically reviewed by the Board of Directors, also on the basis of a preliminary review carried out by the Internal Control and Risk Committee.

Commitment

The Company intends to confirm its commitment:

- to pursue as its primary objective, in its formal acts and conduct, the creation of Shareholders value;
- to model its business on total compliance with the ERG Group’s ethical principles, which are based on that combination of values consisting of personal integrity, correctness of relationships inside and outside the Company, and transparency vis-à-vis Shareholders, related stakeholders, and the market – as outlined and explained in the Code of Ethics, adopted in December 2003 and most recently updated on 10 November 2011, to reflect not only the organisational-corporate changes that have taken place in the ERG Group, but also the regulatory changes that have taken place and the evolution in reference best practices;
- to ensure, by means of constant attention to the ongoing evolution of corporate governance principles, observance of such principles by its organisation, in order to ensure, in turn, the transparent and efficient operation of the organisation over time.

The documents concerning Corporate Governance, to which reference is made in the Report, are available in the Governance section of our website www.erg.it.
